

SKYLAB

COMPANY INTRODUCTION

2023

**We are SKYLAB.
We are pioneers
in the science of well-being**

With our world-leading scientists and specialists, we combine new technologies with everyday products and services to redefine personal health and happiness.

We embark on pioneering research, launching ground-breaking innovations, inspired by nature, across our core specialisms: oral care, personal care, health diagnostics, and supplements.

**AND WE DO ALL THIS FOR A HEALTHIER,
HAPPIER TOMORROW.**

skylaboratory.ch

WE ARE BORN IN BIOPÔLE LIFE SCIENCES CAMPUS IN LAUSANNE, SWITZERLAND.

The home to over 2,500 people from the world's most innovative life sciences companies and research groups.

OUR VALUES

PRODUCTS OF TOMORROW, BUILT BY PASSION AND PRECISION

At SKYLAB, we work to engineer the very best healthcare products and services of tomorrow.

But we never lose sight of our values – of the curiosity, the passion, and the desire to improve people’s lives that defines us.

INNOVATION

INTEGRITY

RESPONSIBILITY

PASSION

THE SKYLAB METHOD

We work according to our values, collaborating effectively to deliver our range of life-enhancing products

WE HARNESS INNOVATION FOR HAPPINESS

Feeling healthy, feeling happy. It's that simple.

We employ the best minds across scientific disciplines to devise game-changing healthcare products and services – helping improve the wellbeing of people.

WE THINK BIG AND DARE GREATLY

Thinking outside the box? It's what we do best!

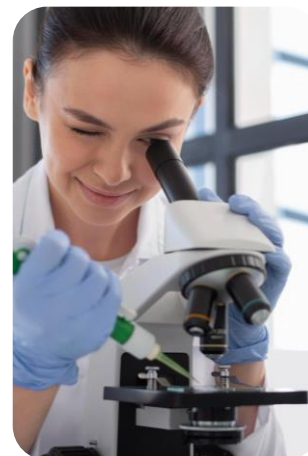

We choose not to follow the paths already trodden by so many in a sea of sameness. We create truly original wellbeing products, advised by scientists and specialists alike.

WE APPLY RIGOROUS PROCESS, AGAIN AND AGAIN

First, we conduct extensive, often pioneering research.

Then we work on developing prototype after prototype until we are certain our product is just right, and ready to transform people's lives.

FORMULATED BY SCIENCE. MADE WITH LOVE

Made with love: for people, by people.

All our products are made by our partner manufacturers all around Europe in France, Bulgaria, Italy, Denmark.

I wanted to make some changes to my health so I decided to remove fluoride from my mouth hygiene. Slightly yellow in colour when it comes out of the tube which was a surprise. I feel happier that it is fluoride free & taste amazing but still leaves my mouth feeling clean & teeth clean. Very happy with my purchase. Will definitely buy again!

EUROPEAN CERTIFIED AND PATENTED TECHNOLOGIES
CLINICALLY TESTED IN SWITZERLAND

BIOMED: WISE BY-NATURE, INSPIRED BY SCIENCE

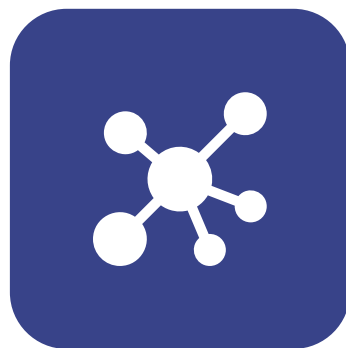

Natural sensitive whitening products with clinically proven effectiveness.

We invented the patented complex L-ARGININE, a real combination of plants and the latest innovation in cavity defense.

Innovative approach to sensitive oral care: we make natural whitening + enamel protection not a fantasy, but a reality.

Bright colors, mood lifting flavors, 98%+ naturalness in all our products, free from all nasties – that is Biomed unique combination.

BIOMED FORMULA

Synergy of active components

UNIQUE PATENTED BIOTECHNOLOGY

with HAP and L-Arginine for enamel strengthening and caries protection

L-ARGININE (an amino acid) contributes to the improvement of the oral microbiome, protects against caries

HAP (enriched with Calcium / Magnesium / Zinc Hydroxyapatite) strengthens the enamel, reduces teeth sensitivity

PROTEASE (enzyme) provides plaque protection

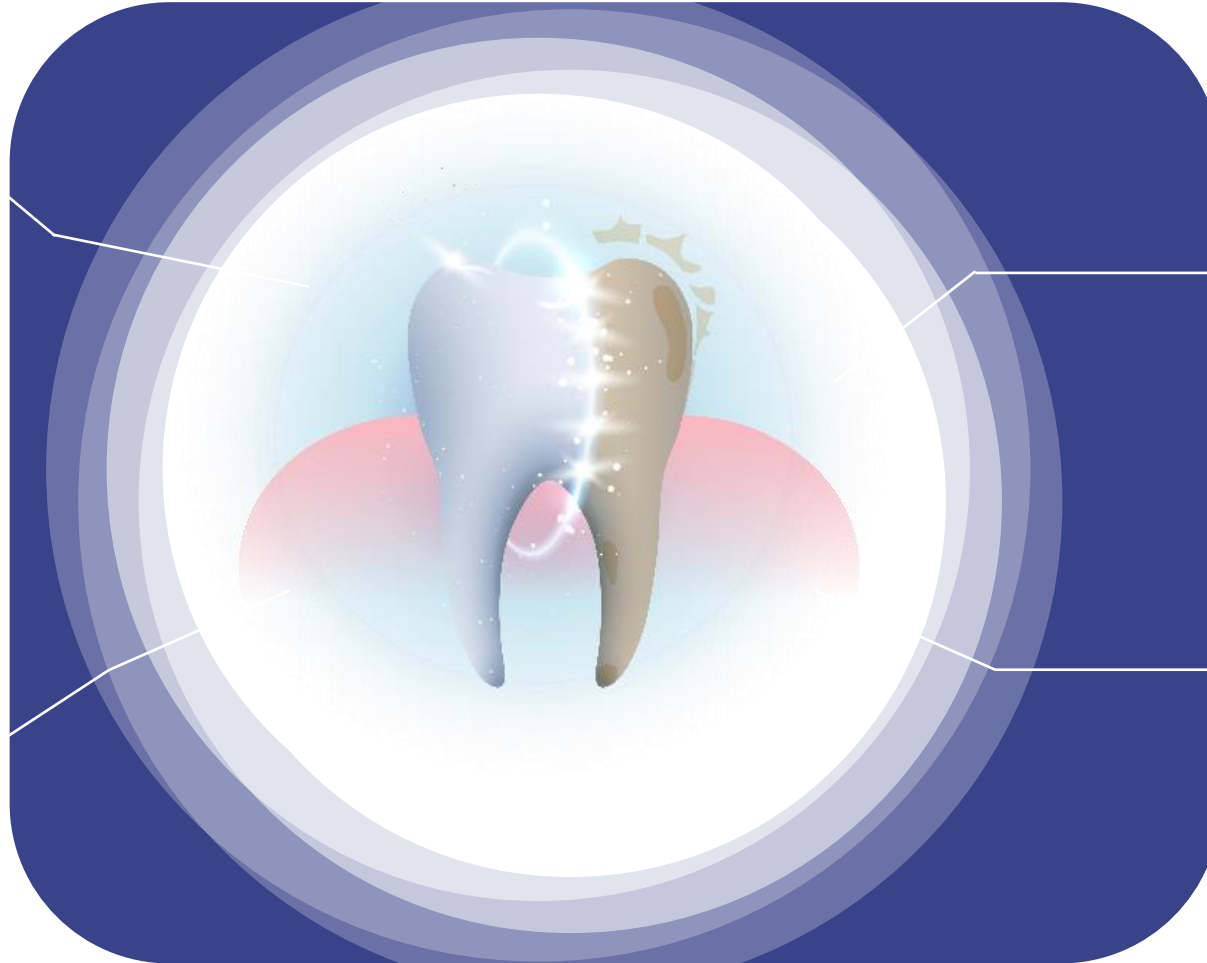

ANTI-INFLAMMATORY EFFECT

Plantain and Birch for gum health

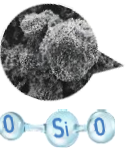

CLINICALLY TESTED:
UP TO 80 % CLEANSING IN 30 SEC
UP TO 50 % DEODORIZING FOR 12 H

NATURAL & GENTLE PLAQUE CLEANING

Silica & Dicalcium Phosphate dehydrated

QUICK PLAQUE REMOVAL

PROTEASE and BROMELAIN (natural enzyme extract from pineapple)

LONG LASTING FRESH BREATH

Menhtyl lactate and essential oils

TOOTHPASTE

THE NATURAL WAY TO WHITEN SENSITIVE TOOTH ENAMEL
